

Mailing Address Area

While the US Postal Regulations for addressing various pieces of mail are constantly in flux, we have worked with them to come up with the following for a comprehensive address area.

The bottom right corner of the piece held widest must be a blank box of 4.25 inches wide by 2.75 inches tall.

This will allow for the USPS's optical eye to read the bar code and address most efficiently and ensure your mail is processed as quickly as possible.

Bulk Mail

A bulk mailing must be at least 200 pieces and must all be the same information and items. It is delivered 7-10 business days from the mailing date.

Political Bulk Mail

Same restrictions as Bulk Mail, except it is delivered within 2-3 business days.

Postage Rates

Depending on the size, shape, weight, quantity, saturation, location, and so many more factors; the postage for your mailing can fluctuate greatly.

The best way for us to quote your job, and provide you with the lowest possible postage rate, is to run your list through our mailing software, approved by the USPS.
